

Carboxy Therapy
Release Form

Carboxy Therapy is an FDA approved procedure to improve the appearance of stretch marks
And reduce cellulite.

Carboxy therapy is a non surgical method in which Carbon DIOXIDE (CO2) is injected into
Tissue through a needle. From the injection point carbon dioxide diffuses easily into
Adjacent tissues.

Carbon dioxide is used to mechanically kill fat cells. It also causes dilation of blood vessels
On the capillaries in the area. Wider vessels mean bigger and stronger blood flow to the area,
Which means more oxygen. The increase in oxygen helps to eliminate the built up fluid from
between the cells. The end result is fewer fat cells and firmer subcutaneous tissue.

Side effects include mild pain and or bruising at the injection site. Individuals having this
Treatment must avoid emerging themselves in water (ie: baths, swimming pools) for 4 hours
Following treatment.

I understand that to achieve optimal results multiple treatments are necessary.

I am not pregnant or trying to become pregnant nor am I nursing at this time.

The nature and purpose of the treatment have been explained to me. I have read and
Understand the attached agreement(s) All of my questions have been answered to my
Satisfaction and I consent to the terms of this agreement. Alternative methods of treatment
and their risks and benefits have been explained to me and I understand that I have the right to
refuse treatment.

I release _____, medical staff, and specific technicians from liability
Associated with the procedure. I certify that I am a competent adult of at least 18 years if age.
This consent form is freely and voluntary executed and shall be binding upon my spouse,
relatives, legal representatives, heirs, administrators, successors and assigns.
